TASCO Insurance × VETC Motor Insurance Growth Platform · prepared by iorta TechNXT · October 2026

This folder holds the business case, requirements and engagement model for the platform: new business, renewal, partners and value beyond discount. The documents are written to be read in order but can stand alone. IDs are consistent across all of them.

Documents

#	Document	What it answers	Primary audience
0 1	Business context and growth strategy	Why own-channel renewals are near zero; the segment, channel, trust, value and data strategy; roadmap; KPI tree; illustrative business case; fit with the judging criteria	Executives, judges, steering committee
0 2	Functional requirements specification	What the platform must do: FR-001 – FR-110 by capability, with business rules, MoSCoW priority, track and build status	Product owners, BAs, engineering
0 3	Non-functional requirements	How well it must do it: NFR-001 – NFR-069 (performance, scale, SLOs, ASVS L2, PDP privacy, WCAG 2.2 AA, DR, portability, configurability, retention)	Architects, security, operations
0 4	User stories and acceptance criteria	US-001 – US-077 in 15 epics, with Gherkin acceptance criteria linked to FRs	Delivery team, QA, UAT users
0 5	Requirements traceability matrix	FR → US → code module → API endpoint → rule kind → test file, plus engineering notes E-01 – E-22	Engineering, QA, audit
0 6	Personas and journey maps	5 customer and 13 staff/partner personas; current vs future journeys; service blueprints for renewal and new-vehicle onboarding; pain points; moments of truth	Product, UX, campaign managers
0 7	Commercials and engagement model	Phases, team, effort, Option A (fixed + T&M + managed service) and Option B (outcome-linked), run cost, 3- and 5-year TCO, milestones, assumptions, exclusions	TASCO procurement and finance, executives

ID conventions

Prefix	Meaning	Defined in
SEG- n	Growth segment (lapsed, new vehicle, renewal, conquest, cross-sell, fleet, partner-led)	01 §4
K- nn	KPI	01 §11
A- nn	Business-case assumption	01 §13
R- nn	Strategic risk	01 §16
FR- nnn	Functional requirement	02
NFR- nnn	Non-functional requirement	03
W- n	Workload assumption	03 §0
EP- nn , US- nnn	Epic, user story	04
E- nn	Engineering note (code inconsistency to fix)	05 §3
PC- n , PS- nn	Customer persona, staff/partner persona	06

Prefix	Meaning	Defined in
PP - nn , MoT - nn	Pain point, moment of truth	06
C - nn	Commercial assumption	07 §9
T1 – T4 , NB , PL	Challenge track 1–4, new-business extension, platform/governance	02 §0

Sources and conventions

- **Facts about TASCO, VETC and the market** come only from the client brief. Everything else is a labelled assumption.
- **Facts about the solution** cite the codebase: `config/rules/*.json` (business rules), `config/security/rbac.json`, `src/domain`, `src/application`, `src/adapters/http/routes.js` (73 API routes) and `src/bootstrap/seed.js`.
- **All financial figures are illustrative or indicative.** Unit costs come from `config/rules/costs.json` and regulated premiums from `config/rules/tariff.tnds_car.json` (Decree 67/2023/ND-CP, to be confirmed by TASCO underwriting).
- **Regulatory references** (Law on Insurance Business 08/2022/QH15, PDP Law 91/2025/QH15, Decree 13/2023/ND-CP, Decree 91/2020/ND-CP) are noted for **confirmation by TASCO legal**. They are not legal advice.
- Vietnamese terms: *Bảo hiểm TNDS bắt buộc* (compulsory motor third-party liability), *đăng kiểm* (vehicle inspection), *bảo hiểm vật chất xe* (physical damage), *tai nạn người ngồi trên xe* (passenger accident).
