

User Manuals — TASCO Growth Platform (v1 UI)

TASCO Insurance × VETC Growth Platform — User Manuals

iorta TechNXT

Version 1.0 · 07 October 2026

Document	Version	Date	Owner	Status
User Manuals Index	1.0	07 October 2026	iorta TechNXT — Business Analysis and UX	Issued for submission

Start with the **Staff User Manual**, then read the manual for your role. The in-app help drawer ("?) summarises each page and points to these manuals.

Staff

Manual	Role(s)	Demo user (training and UAT only)
Staff User Manual : sign-in and MFA, navigation, common actions, help, troubleshooting, FAQ	All staff	—
Telesales Agent	telesales_agent	agent.hn, agent.hcm
Telesales Supervisor	telesales_supervisor	supervisor
Campaign Manager	campaign_manager	campaign
Rule Author and Approver (maker-checker)	rule_author, rule_approver	author, approver (MFA)
Compliance Officer : approvals, audit, DSAR, governance figures	compliance_officer	compliance (MFA)
Data Steward	data_steward	steward (MFA)
Claims Handler	claims_handler	claims
Partner Manager	partner_manager	partners
Administrator and Support : users, operations status, jobs, health	admin, support_engineer	admin (MFA), support
Executive	executive	exec

Roles and their permissions are defined in `config/security/rbac.json`. The internal auditor role (`auditor` , demo user `auditor`) is read-only. Auditors should use the audit sections of the [Compliance Officer Manual](#) (section 4).

Training and UAT environments: demo users exist only when the platform runs in demo mode. Sign in with the username and password from the access workbook issued for your environment (a local demo on a developer machine uses the default password `Tasco@Demo2026!`). The sign-in page has no role shortcut buttons. Users with MFA roles enrol an authenticator app at their first sign-in. In UAT, the MFA step also offers **Sign in with demo code (UAT)**. None of these helpers exist in production.

Partners and customers

Guide	Audience
Partner API Guide : quotes, orders (idempotent), policies, commission statement, authentication, errors, curl examples	Partner developers
Customer App Guide : Vietnamese, with an English summary	VETC drivers, and customer-service staff who support them

Conventions in these manuals

- **Numbered steps** for procedures. **"What you will see"** describes the expected result. **Tips** and **Troubleshooting** close each manual.
- Screen labels are in English, with the Vietnamese label in brackets where it helps. The console opens in Vietnamese by default. The language button in the top bar switches between Vietnamese and English.
- Dates on screen are dd/mm/yyyy. Money is in VND.
- The no-discount rule applies everywhere: TND\$ premiums are regulated and identical at every insurer.
- Staff never take payment. Customers confirm and pay inside the VETC app.
